

# **Rubber Ducky Pattern (Crochet)**

*Created by Kit Wolfren*

- This pattern is worked in Amigurumi style rounds, do not link rows.
- Body and Head are worked in yellow of choice. Beak in orange of choice. Red Heart Super Saver worsted weight is recommended.
- Everything is worked in single crochet, except for beak. Beak also calls for half double crochet.
- 6mm Safety eyes are recommended.
- Magic Ring stitch is used to start head and body sections. “Chain 2, work in second chain” method will work also, but won’t give as nice a tail or as tight of a beginning circle.
